- I am a Software Engineer with 2 year of experience in android application. I have a deep knowledge and good hands-on experience in Android Studio And Core Java.
- I am very passionate to learn & develop different kind of software thus consistently sharpening my knowledgeand adding values to the organisation for achieving its vision by contributing to organisational growth and building a constructive career.
- I have worked on 5+ android applications which are internal projects and real-time projects based application .
- Best cooperation & understanding with client on UI/UX design specification and gathering business requirement and giving solutions for improving the product.
- Handling development of modules using the given design specifications, debugging analysing and fixing the defects by finding its root cause and helped in improving user experience as an effective team player.

Yours Cordially,

(C.KARTHIKEYAN)
